

OUR STORY

A legacy of quality and excellency

Based on high quality standards, our **f**amily has been able to produce excellent tequilas since **t**he 1840's in the southern part of **J**alisco.

Our **t**radition of **q**uality and honesty has been passed down from **g**eneration to **g**eneration and our commitment to making the **b**est **t**equila continues till this day.

Our strict **s**standards can be seen from our careful **s**election of the most mature **b**lue agave plants to paying attention to the **s**mallest **d**etail in the elaboration of our **t**equilas.

We now have the **r**esponsibility to continue the growth of our **c**ustomers confidence, as well as increasing our **r**ecognition around the world.

We are **c**onfident in our ability to do this, as we take **s**eriously the new responsibility to increase the **t**rust of those we have served and gain **n**ew **a**dmirer's with our dedication to tradition.

It is our relentless **p**ursuit of that tradition that allows our **c**ustomer's confidence to grow and for **T**equila **D**istinguido **G**roup to become recognized **w**orldwide for our outstanding quality.
